WHO ARE WE?

An organization built with a sole objective to maximize customer satisfaction. Always wanting to explore new innovative processes which could benefit our customers prompted us to introduce latest communication and navigation equipments to the Indian market. As the Indian market grew and acceptability for quality equipments from varied industries resulted in us developing a quality conscious infrastructure.

Over the years the company has taken confident strides on the road to corporate excellence thus ensuring growth and prosperity to its customers. Drawing from our bucket of rich and vast experience, a thorough understanding of your needs we offer you state of art, user friendly industry specific products and solutions. We ensure our products are simple to use, feature rich and internationally acclaimed to ensure reliable and critical service- the philosophy of our business. Through constant training and up gradation from our principles we keep abreast of the most modern business developments and equipments in our industry. These ideals have played a crucial role in shaping M M Traders what it is today. Realizing that integrated solutions are the answer to mission critical applications we have forged strategic alliances with some of the best global market leaders to deliver quality products and reliable services.

WHY M M TRADERS?

Our constant endeavor to excel in the competitive market has forced us to embark on a commitment which has been our guiding factor of our quality compliance.

We are committed:

- To improve operational safety, reliability and effectiveness of products aimed at maintaining its high competitiveness at present and in future.
- To create the Corporate Quality Management System, this corresponds to ISO 900 certification and to increase its effectiveness.
- To create for its team an environment for innovative thinking by facilitating a continuous training and improvement process.
- To meet the customer's demand and to exceed their anticipation related to operational safety, reliability, effectiveness of products.
- To take our corporate responsibilities seriously and have effective Systems in place to make sure that we deliver our promises.
- To set targets for improvement, and then to monitor, review and report performance against these targets and other key performance indicators.
- To regard our staff as one of the most valuable assets of the organization playing a determining role in shaping the destiny of the organization.
